Revocation

18. The Building Control (Amendment) Regulations 2013 (S.I. No. 80 of 2013) are revoked.

GIVEN under my Official Seal,
15 January 2014.

PHIL HOGAN,
Minister for the Environment, Community and Local Government.
EXPLANATORY NOTE

(This note is not part of the Instrument and does not purport to be a legal interpretation.)

These regulations revoke and replace S.I. No. 80 of 2013. The key changes include changes to the wording of the statutory certificates in the interests of the insurability of persons giving the certificates and changes to recognise the online Building Control Management System as the preferred means of building control administration.

These Regulations strengthen the current arrangements in place for the control of building activity by requiring greater accountability in relation to compliance with Building Regulations in the form of statutory certification of design and construction, lodgement of compliance documentation, mandatory inspections during construction and validation and registration of certificates.

Regulation 7 amends Article 9 of the Principal Regulations to provide for a revised form of Commencement Notice which must be submitted to a building control authority prior to the commencement of construction works. The Commencement Notice must henceforth be signed by the owner of the works. Where the works involve the creation of a building (including a single dwelling unit), an extension greater than 40 square metres or require an application for a Fire Safety Certificate in accordance with Part III of the Building Control Regulations 1997 to 2014 the Commencement Notice and the appropriate fee must in addition be accompanied by the following:

(a) General arrangement drawings;

(b) A schedule of design documents as are currently prepared or to be prepared;

(c) An online- assessment via the Building Control Management System of the proposed approach to compliance with the requirements of the Building Regulations 1997 to 2013;

(d) The preliminary inspection plan;

(e) A Certificate of Compliance (Design);

(f) Notices of Assignment in respect of the Builder who will carry out the works and of the Assigned Certifier who will inspect and certify the works; and

(g) Certificates of Compliance signed by the Builder and the Assigned Certifier undertaking to carry-out their roles in accordance with the requirements of the Building Regulations.

The commencement notice and accompanying documentation must be filed electronically via the online Building Control Management System. Where notices and documentation are submitted in written format, the building control
authority will arrange for scanning and uploading of same for which an administrative charge will apply and statutory deadlines relating to such notices may be delayed by up to seven days.

Regulation 7 further amends Article 9 of the Principal Regulations to oblige a building owner to notify the Building Control Authority of any changes of ownership of the works or of the persons assigned as Builder or as Assigned Certifier and to provide the appropriate notices of assignment and forms of undertaking in respect of the new assignees. Failure to attend to any of these obligations, as well as being an offence in itself, would delay or inhibit inclusion of details of the final certificate on the statutory register.

Regulation 10 amends Article 20A(2) of the Principal Regulations to provide for a revised form of 7 Day Notice and otherwise changes the administrative arrangements that pertain to the 7 Day Notice process in line with those changes described above in relation to the Commencement Notice process.

Regulation 12 inserts a new Part IIIC to the Principal Regulations providing for Certificates of Compliance on Completion. A completion certificate must be sent to the Building Control Authority and included on the statutory register maintained under Part IV of the Principal Regulations before works or a building to which these regulations apply can be opened, occupied or used. The completion certificate must be signed by the Builder and the Assigned Certifier and must be accompanied by plans and documentation showing how the completed building complies with the requirements of the Building Regulations (and clearly indicating any differences to design documentation previously submitted to the Building Control Authority at commencement or during construction) and by the Inspection Plan as implemented by the Assigned Certifier.

A Code of Practice for Inspecting and Certifying Buildings and Works will be published by the Minister for the purposes of providing guidance with respect to inspecting and certifying work for compliance with the Building Regulations. Compliance with this Code of Practice shall, prima facie, indicate compliance with the relevant requirements of these regulations.

Documentation held on file by a building control authority relevant to works or a building included on the statutory register will be accessible to any person who subsequently acquires an interest in the building concerned.

Failure to comply with the requirements of the Building Control Regulations 1997 to 2014 shall be an offence to which section 17 (2) of the Building Control Act 1990 refers.

These Regulations come into operation on 1 March 2014.
